OVERVIEW OF FAUCETS BY TYPE	18

## BENEFITS OF JIKA FAUCETS

### LOWER CONSUMPTION OF WATER AND NO SPLASHING

You can achieve this with aerators that regulate the water flow rate, modify the shape of the stream and save both your money and the environment.

### CONVENIENCE SAFETY SAVINGS

The thermostatic faucet ensures an immediate supply of mixed water at the required temperature.

The safety button prevents the temperature from being set higher than body temperature – a safe and pleasant 38 °C.

The smart thermostat maintains the same temperature even in the event of pressure or temperature fluctuations in the water supply.

### OPTIONAL FAUCETS HEIGHT

Choose the washbasin faucet that best matches your washbasin or wash bowl. Choose from a variety of sizes.

## BENEFITS OF JIKA FAUCETS

### HARMONY OF DESIGN AND STATE-OF-THE-ART TECHNOLOGIES

Not only do faucets play a practical role in the bathroom, they are also a highly visible design element.

### 100% CONTROL

Every Jika faucet undergoes an air pressure test and random samples also have to undergo a water test. These tests guarantee their durability and long life.

### FAUCET OF THEIR FIELD

Jika is part of the international Roca group, which has been manufacturing faucets since 1930. Roca currently has 11 production plants on four continents with production of over seven million units per year, including several automated ceramic cartridge production lines.

### ASSEMBLY LINE IN ZNOJMO

In cooperation with the ROCA Sanitario development centre and laboratories, two faucet assembly lines were put into operation in Znojmo in 2011.

RELIABILITY  
WIDE RANGE  
QUICK AVAILABILITY

## BENEFITS OF JIKA FAUCETS

### THE IDEAL SHOWER HANDSET

#### FOUR SHOWER FUNCTIONS

Choose the intensity yourself, from gentle rain to an intense massage.

### EASY MAINTENANCE

The shower heads and shower handsets work reliably regardless of the amount of limescale. They have the Clean Touch function for easy cleaning.

### FOR TALL PEOPLE AND CHILDREN

The telescopic shower rail will please everyone using the bathroom, because with the standard connection of the rail 75 cm from ground level, the shower head can be placed at a height of from 180 cm to 220 cm, which will satisfy even the tallest amongst us!

Variable mounting of the shower bar.

# DESIGN/QUALITY/PRICE

Jika faucets and shower accessories offer you a large number of design and technical solutions with a perfect design/quality/price ratio.

## WATER AND ENERGY SAVINGS

**OPTIONAL AERATOR**  
the possibility of choosing an aerator with different flow rates

**5 l/min**  
water flow rate of 5 l/min

**6 l/min**  
water flow rate of 6 l/min

**SAVE WATER & MONEY**  
Due to a water-saving aerator the water flow is reduced at least by 50%. Ecological solution that saves costs and keep your comfort.

**ECO STOP**  
50% flow rate control

**ECODISK**  
Ecodisk cartridge can control water flow and temperature, achieving up to 50% savings!

## CONVENIENCE AND SAFETY

**DIFFERENT HEIGHTS**  
of washbasin faucets

**AERATOR**  
with adjustable water flow

**SAFETY STOP**  
water temperature safety lock set to 38°C

**QUICK REACTION**  
to the required water temperature setting

**SENSOR**  
sensor faucets

**ADJUSTABLE HAND SHOWER HOLDER**

**VARIABLE MOUNTING**  
of the shower bar

## MAINTENANCE, WARRANTY AND SERVICE

**CLEAN TOUCH**  
function that facilitates cleaning of shower jets; soft rubber guarantee easy removal of limescale

**ANTI TWIST**  
all shower hoses feature this anti-twist system concealed in the hose cone

**EXTENDED WARRANTY**  
on the cartridge and faucet surface when installed by a qualified plumber

**70 000 CYCLES**  
All faucets are tested for 70,000 cycles

**HOME SERVICE**  
warranty servicing at the customer's home
